Subject: camp creek

Hi,

Here's a news brief from 1903 I cam across while doing the Back Pages for the newspaper that I thought would be of interest to Ranch files on Camp Creek.

I'm sure this refers to upstream from the castle.

Gazette, January 18, 1903

General W. J. Palmer yesterday secured an injunction in the district court to prevent the pollution of Camp creek which furnishes the water supply of General Palmer's home, Glen Eyrie, by campers and prospectors. Judge L. W. Cunningham issued the injunction which is temporary until a hearing shall be had upon it.
